

eQUITY Fundamentals

For health and social services managers

eQUITY Link

French language health services made simple and accessible

Self-assessment

Assess your current situation to gain a clear understanding of your strengths and identify key elements to incorporate into your work plan.

Introduction and key concepts

What do we mean by "Fundamentals"?
What does active offer really mean?
Before diving into each module, we clarify the basics to get you off to a good start.

Before you start the modules

You don't have to take this journey alone. Discover how to mobilize your team and effectively initiate the changes ahead.

MODULE PLAN

Who does what? Establish clear objectives and timeframes for implementing priorities. Define the roles and responsibilities of your team members working to improve your organization's offer of French-language health services.

MODULE UNDERSTAND

Learn more about the needs of Francophone and Acadian communities, as well as your organization's current capacity.

MODULE IMPLEMENT

Take action with concrete strategies based on the five principles of equity. Access tools and expert advice to move your plan forward.

MODULE ÉVALUATE

Measure your progress and adjust your actions as needed. Take advantage of practical resources, tools and checklists to assess your progress and plan what's next.

Support from French-Health Networks

Communities of practice

Continue your journey to sustainable quality health and social services for Francophone and Acadian minority communities.

Need a hand?

The eQUITY Link team is here to support you, whether you're using the platform or working to implement French-language health and social services.
